## REMARKS

Each of the amendments listed above corrects a typographical error in the "Brief Description of the Drawings" section of the present application. The "Brief Description of the Drawings" section of this application is divided into 27 paragraphs, one for each of the figures in the present application. Each of these paragraphs describes a single figure and begins by identifying the figure being described (*e.g.*, Figure 1, Figure 2, Figure 3, *etc.*). Several of the figures contain two or more sub-portions which are designated with the figure number followed by a capital letter (*e.g.*, 20A, 20B, 20C, *etc.*) in both the Drawings and the "Brief Description of the Drawings" section of the application.

Each of the typographical errors corrected by the above amendments occurred when a sub-portion of a figure was incorrectly identified in a particular paragraph. For example, in the paragraph describing Figure 20 (at page 22, lines 27-33 of the specification), the three sub-portions of Figure 20 were inadvertently identified as 18A, 18B, and 18C. As can be seen from the context of the paragraphs, their order, and the figures themselves, it is clear that this

paragraph describes Figure 20, and that the sub-portions of the figure identified therein can only be properly identified as 20A, 20B, and 20C. Similarly, in the case of each of the other amendments, the only number appropriately used to identify a sub-portion of a figure is the figure number which occurs at the beginning of the paragraph describing that figure. Accordingly, the figure numbers identifying each of the sub-portions of the figures have been corrected by the above amendments, so that the number used to identify a sub-portion is consistent with the number of the figure at the beginning of each paragraph in the "Brief Description of the Drawings" section of the application. Applicants submit that the above amendments are fully supported by the application as originally filed and do not constitute new matter.

The Examiner is respectfully requested to enter these amendments.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952**. However, the Assistant Commissioner is not

authorized to charge the cost of the issue fee to the Deposit Account.
